

JLEC Giving Tree Project

The Giving Tree Project is an effort to help out different organizations within our community. Each month at our GMM we will have a different recipient with a “wish list” of items needed. Each member is asked to bring a small donation from this list.

The **Beacon House** is the first recipient for our Giving Tree Project.

Each member attending September's GMM meeting is asked to bring a small donation from the "wish list".

Thank you for your support!
